Objective:

To develop my skills in mobile application development, full stack and game development, and to become a part of the industry where I can utilize my skills and experience in IOS, Android and history in multiplatform development to create applications and experiences which are scalable, attractive to users, and intuitive in use.

Qualification Highlights:

Proficiency in developing IOS and web applications, adhering to best practices with consideration for all aspects of development lifecycles.

High adaptability to situations, able to plan around and shift priorities to suit the current requirements of the team.

Demonstrated ability to produce properly documented and clean code and troubleshoot technical issues.

Powerful problem-solving and time-management skills, maximizing team efficiency.

Ability to work in teams, communicate clearly and mediate situations within teams.

Technical Skills:

Programming Languages: Swift, Kotlin, HTML, CSS, Java, JavaScript, C++, C#

Web Development Frameworks: Express, EJS, NodeJS, Bootstrap

Mobile Development Frameworks: IOS SDK, Android SDK

Database Management: MongoDB, SQL, Firebase, PHP, GIT, Retrofit, GSON

Development Environments: Xcode, VSCode, IntelliJ, Android Studio, Unity, Unreal Engine 4

Education:

Ontario College Graduate Certificate | George Brown College

01/24 - Present

Mobile Application Development and Strategy:

Acquired and Developed Proficiency in Mobile Application Development skills, particularly Swift & Kotlin languages through the development of renter, landlord and tenant mobile applications with read, update and authentication functionalities done through Firebase.

Demonstrated ability to support applications through development cycles by using wireframes, mockups, prototypes, and AGILE methodologies in order to ensure adherence to allocated project timelines.

Resolved any issues that may have occurred during development with application functionality and user experiences through stringent testing and debugging of application in order to ensure that applications meet project requirements and function as intended.

Honors Bachelor of Science | University of Brighton

09/18 - 06/22

Digital Games Development (BSc Hons):

Enhanced communication and teamwork skills through projects and game jams, designed to simulate an industry environment with AGILE methodologies under set timeframes.

Maintained awareness of current industry trends through the analysis of market research done for the purpose of research papers

IB Diploma | Sha Tin College

08/15 - 06/18

Higher Level: English Literature, Physics, Chemistry

Lower Level: Spanish, Information technology, Mathematical Studies

IGCSE Diploma | Sha Tin College

08/11 - 06/15

Certifications:**Web Development | Cantek / FutureTek**

06-23 - 08/23

Developed proficiencies in Typescript and API communication through the refinement of personal portfolios.

Coordinated a team in order to create a customized inventory management system for a hypothetical supermarket chain, using HTML, Bootstrap and Java.

Professional Experience:**Server / Front of House | Tiger San Japanese Fusion Restaurant**

05/17 – 09/18

Tiger San, Tsing Yi, Hong Kong

Demonstrated a strong work ethic and ability to coordinate orders with others through delegation.

Built and maintained strong customer relationships with clients through quick and attentive service.

Discovered and solved customer needs in a timely manner by suggesting products based on requirements.

Developed speaking skills and ability to break down complex terms.

Boosted efficiency of service by coordinating with team & directing orders while ensuring product quality.

Volunteer Experience:**DIY Bike Hub | Peel Multicultural Center**

05/23 – 12/23

Peel Multicultural Center, Mississauga, Ontario

Acquisition of ability to quickly and accurately diagnose and repair complex mechanical issues.

Ability to work with others & communicate clearly to complete tasks in a timely manner.

Developed leadership skills by ensuring adherence to safety protocols while delegating to maximize effectiveness.
